EMPATHS

Empaths are highly sensitive to the energy of other people.

When reading the Tarot you feel what your client feels as if those feelings were you own.

Your Tarot Card is
THE EMPRESS

As a woman who connects
with Mother Nature and the
divine feminine your inner
knowing comes through your
natural connection
to care for all living things.

Your Power

You can easily stand in your clients shoes and with his/her heart and see a situation through his/her eyes.

BE MINDFUL

Your natural ability to take on and process the feelings of others may lead to burnout.

Have clear boundaries and self care practices in place.

Your Perfect Client

Is looking for the reassurance and support that comes from a reader who understands them.

Is open to being read and will allow their energy to blend with yours.

Is struggling with grief and loss or processing traumatic events.

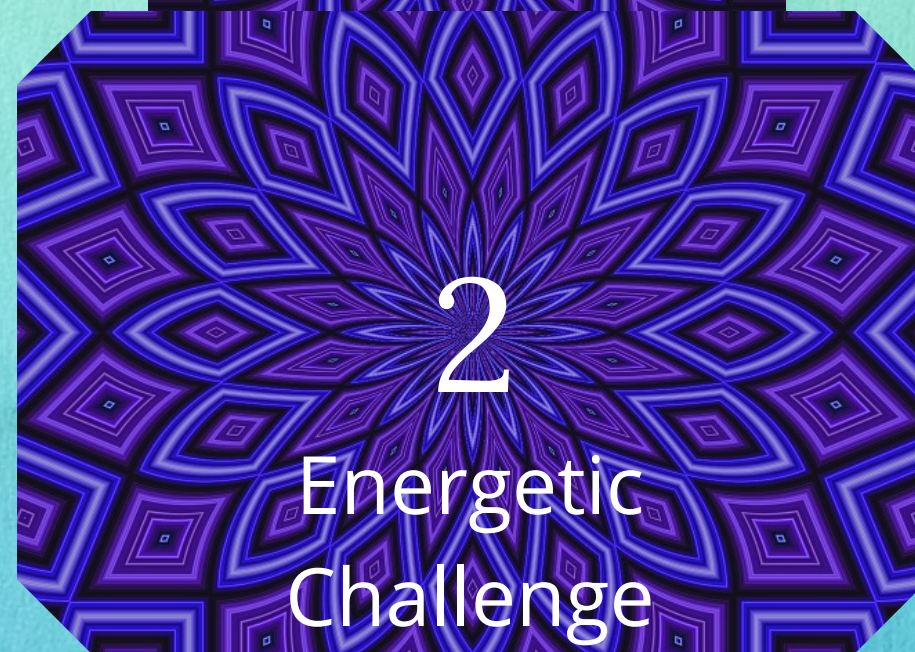

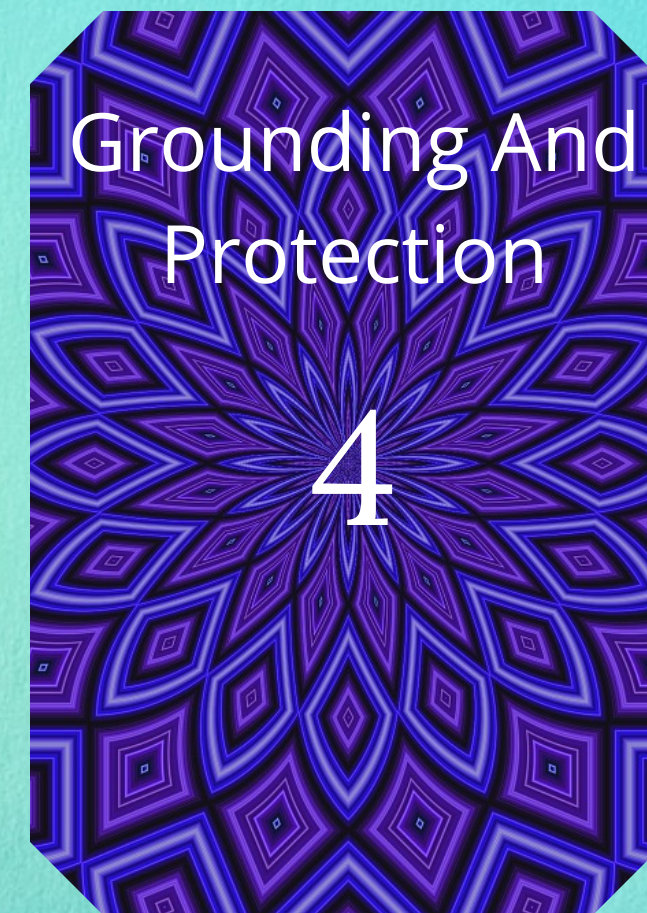

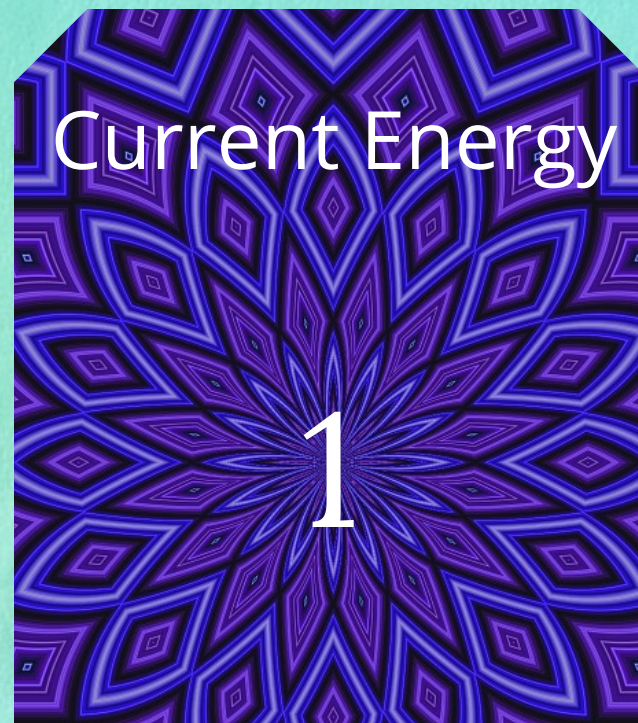

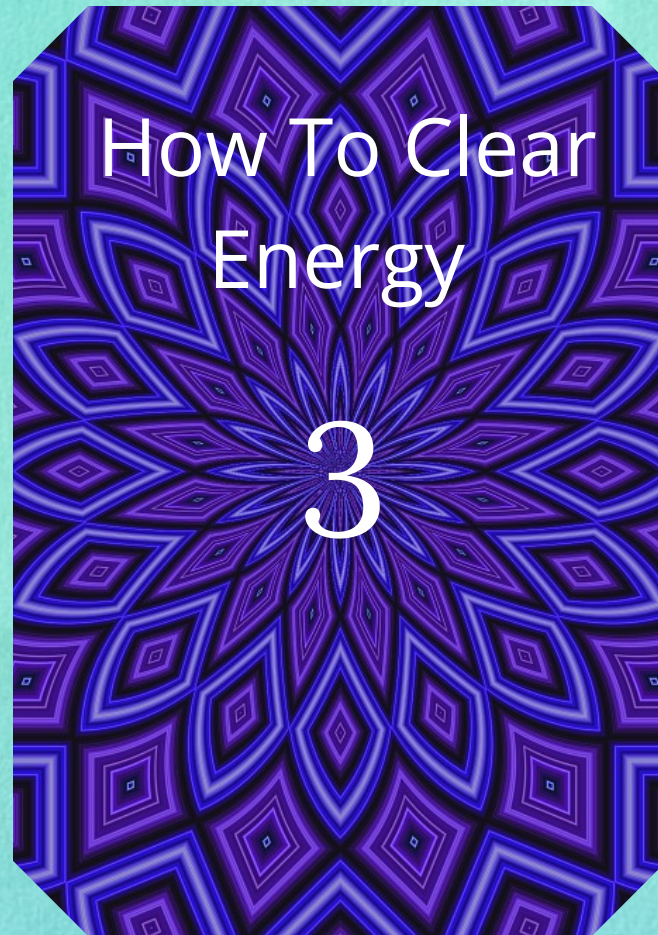

Your Tarot Spread

You can use the following Tarot spread intuitively or read with detailed knowledge of the Tarot cards - it is up to you.

Do what works for you! Use your favourite Tarot deck and tune into the cards.

Even if you are a complete beginner you can use this spread to gain insight into your intuitive skills or with a client to help them tune into their energy.

After you have enrolled you will be invited to join our Facebook community. Come in and introduce yourself as #TarotEmpath and share your 3 card reading.

I'm Elizabeth Roebuck-Jones, Relationship Counsellor and Clairvoyant. This means you get the best of both. I see (hear and feel) spirit energy and help you get real understanding through the experience I have had working for Relate in England and Relationships Australia.

When not doing readings and hanging out with my dog, Bertie, I help women build their confidence and listen to their intuition through Tarot reading and psychic development.
